

【 Notice of an Opening “Simulator Lab”】

SPK Corporation (headquartered in Osaka, Japan; Kyoichiro Oki, President; hereinafter “SPK”) opened a research facility for simulator equipment, called the "Simulator Lab" within the former headquarters "SPK Heritage Center" on Monday, 22nd April 2024.

The Simulator Lab has four racing simulators equipped “QUBIC SYSTEM” electric actuators manufactured by “Motion Systems”, a company based in Poland, which SPK handles as part of its e-Motorsports business. These electric actuators are also used in simulators specially designed for the entertainment industry and driving schools.

In addition to research and development, this facility is also planned to be used for testing by various companies and administrative organizations, as well as hosting e-SPORTS events.

You can experience immersive, realistic driving on state-of-the-art racing simulators equipped with the latest technology. Please make a reservation and visit SPK's Simulator Lab.
